Welcome to Nutrient Web SDK

Welcome

It's great to have you here! We can't wait for you to discover all the things possible with our SDK. This is a sample PDF document that showcases the functionality and rendering of Nutrient Web, our JavaScript-based SDK.

If you have any additional questions regarding Nutrient Web SDK or our other products, please:
Toolbar

The main toolbar features navigation tools to the left ...

... and annotation, save, and search tools to the right.

When a tool offers additional options — such as font settings, opacity, and color — the options bar appears below the main toolbar.

Selecting an annotation tool or an annotation itself will open the annotation options bar.

Tools overview

Selecting text will show a menu with options to highlight, strike through, underline, squiggly underline, or redact the text.
